### Expending Laboratory room, IP room and renovate a toilet outside the Clinic Svay Rieng (CRS)

#### I. Background

MSI Reproductive Choices is a global social business providing sexual and reproductive health services, with a particular focus on ensuring access to contraception and safe abortion services. Our team of professionals are passionate about the work they do in communities across 37 countries. Marie Stopes International Cambodia (MSIC) was established in 1998 and operates eight reproductive health clinics, a network of Marie Stopes Ladies (independent private sector facilities) and a SRH helpline/contact centre. In 2021, MSIC provided services to over 50,000 women and men in Cambodia. The primary responsibility of this role is to further the **MSI Vision: A world in which every birth is wanted** and its **Mission** of ensuring the individual's right to: **Children by choice, not chance.**

Part of Clinic upgrade MSIC need to equip equipment and materials to support women and men to get quality service they deserve to have. For this reason, MSIC would like to seek the suppliers to supply equipment require as detail below.
